55. Literature Club –ADIT

Literature helps young students to unlock their minds and perception of the world and allows them to see out of the box as a result of which they begin to reflect, ask questions and understand better. Students exposed to literature get more significant information about themselves and their responses because they naturally collate their lives with those in literature.

The Literature Club at ADIT aims to encourage a passion for reading and writing and to provide opportunities for students and faculty to engage in literary discussions and activities. Additionally, it seeks to foster among students critical thinking and an appreciation for different cultures, perspectives and historical periods. The objective of Literature Club at ADIT is to make the students and faculty understand, analyse and gain knowledge through the process of reading so that they can become confident and get chance to express their creativity and talents in the best possible way. The library at ADIT has a separate Literature Section which has a very rich collection of books on literature, fiction, non-fiction, biographies, tradition and ethics in society, folklore, prose and poetry, drama, arts and religion etc. mostly by reputed Nobel laureates, Booker Prize winners, Pulitzer prize winners etc.
