Building Blocks of Hackathon

QUBIC, ADIT

Description:

An event was organised on 19th February, 2022. It was a seminar for students to gain knowledge about hackathons titled as “Building Blocks of Hackathon. Aim of the seminar was to bring out more students to participate in hackathon and solve problems related to the same.

It discussed some famous hackathons, importance of hackathons to improve skills, building individual’s profile, roadmap to various hackathon events, providing one of the best sources to enhance skills.

A small group discussion was held to solve some problems.

Target Audience:

2nd year students

Outcome:

Participants gained knowledge about hackathons in a fun way and interactive way.

Schedule:

The event was scheduled on assets\pdf\club\Qublic.
